

GET SAFE NOW

# Bringing safety to your organization - a worthwhile investment

**GET Safe Now helps you**  
**SAVE up to 25 thousand euros per potential**  
**incident and SAVE up to 20 million euros in**  
**company's fines for Health and Safety failures!\***

Did you know?

- around 340 million occupational accidents annually
- around 160 million victims of work-related illnesses annually
- 2.3 million people around the world succumb to work-related accidents or diseases every year
- over 6000 deaths every single day \*\*

We know workplace safety and the health of your people is essential to you!

By using the GET Safe Now solution, not only will you be able to monitor and mitigate accidents at work, but you will also be able to control critical points needed for ensuring the safety and health of your people.

Our solution brings real-time overview, reporting and historical analysis on individual and team scale. It is a base for monitoring, controlling, and continuous improvement of your business processes. With our analytical support, integrated in GET Safe Now, you will be able to proactively anticipate health and safety issues that may arise at your workplace and respond adequately to preserve your people's wellbeing. The ability to continuously respond and prevent injuries at work, solve problems and make decisions on protecting employees and improving working conditions is what GET Safe Now offers.

## During the first year from the GET Safe Now roll-out, you get:

### **Reduced absenteeism up to 10% (absenteeism due to an illness and injury at the workplace)**

To avoid recurrence of incidents and mitigate the consequences, GET Safe Now will follow you down to the root causes identification. Cause will be marked within the solution and corrective and preventive measures will be applied. Their efficiency will be constantly monitored by GET Safe Now.

### **Possibility to build your brand on safety & health that you ensure for your people.**

Every potential employee, and even clients, will choose the company where the health and safety of employees comes first. GET Safe Now with all its functions and benefits will help you discover the causes of problems, solve them and create the best working conditions in your industry. That way, your brand will reach a higher value.

### **Historical minimum of the number of injuries at work.**

GET Safe Now enables you to track safety conditions 24/7 and timely inform you on preventions you need to act on.

### **Higher engagement score related to the questions of the Safety domain.**

Healthy, motivated people are more productive and create conditions for corporate success, which is why investing resources in the well-being of the workforce brings high returns.

### **A decrease in self-reporting of suffering from an occupational disease.**

Based on the surveys and statistics, you can see which occupational diseases are represented and what is their cause.

## GET Safe Now also brings you:

**Increased Accountability & Transparency in Reporting**

**Full User Support**

**Full Localization**

**Available Everywhere, Any Time**

**Live Interventions Onsite**

**Digitalizing the Absence from Work**

**Full Customization**
